

# INTRANET MANAGEMENT

Effectively manage internal communications within your firm with Intranet Dashboard

Intranet DASHBOARD® (iD) delivers a comprehensive all-in-one approach for managing your intranet. iD includes a feature-rich suite of clever applications to enhance and improve the efficiency of your firm. Build and develop an enterprise intranet with an infinite number of on-demand workspaces and customisable department sites. An unlimited number of users can publish and share content to an unlimited number of sites with sophisticated security and permissioning.

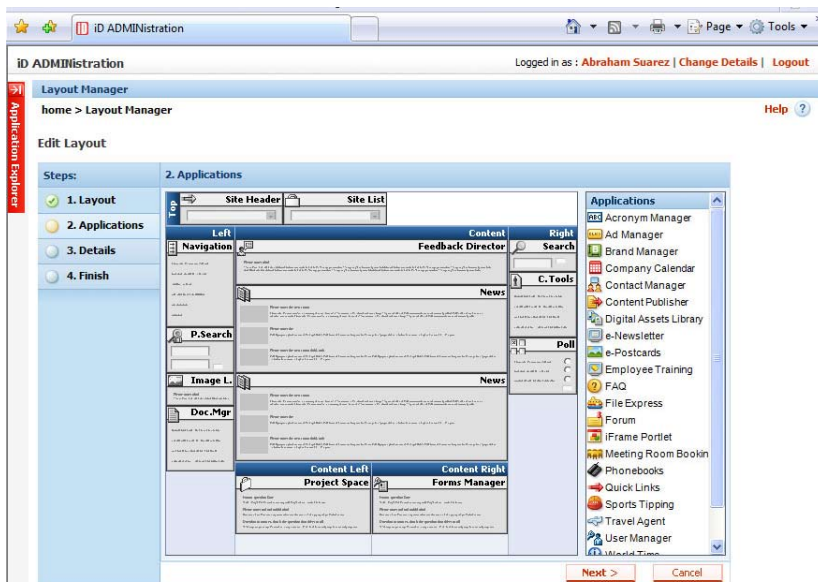

## FEATURES AND BENEFITS

- **Smart Intranet Management** - Manage your intranet using a unified consolidated approach to intranet administration. A browser-based management console allows you to perform powerful administrative functions, delegate tasks to other people, and provide standards and governance.
- **Real Time Deployment** - iD's comprehensive integrated suite allows you to manage information and applications and deliver them in real-time. Upload, view and publish all through one easy-to-use interface. Implement an intranet in a day. Create subsites and team workspaces in minutes, not months.
- **Superior Content Publishing** - Intranet DASHBOARD features a content publishing system that caters for all levels of expertise. With a simple and intuitive interface, it allows you to swiftly upload, preview and publish pages in real-time. Administrators can also subscribe to changes.
- **Live User Statistics** - Measure your ROI constantly. Intranet DASHBOARD provides comprehensive statistical information to monitor intranet use and the effectiveness of content. e-Metrics are critical for administrators and communicators to make informed and timely decisions.
- **Intuitive Interface** - You don't need to be a technical expert to benefit from Intranet DASHBOARD. Both front-end and administration areas use point

## ABOUT PARTNER FOR WINDOWS

Partner for Windows is a comprehensive practice and case management system including accounting, case and document management, time recording and billing which together form a complete system to meet the back and front office requirements of a modern legal practice.

The extensive functionality of Partner for Windows can further be enhanced using a range of specialist third party solutions designed to address key business issues for the legal profession. Each of these solutions is seamlessly integrated into Partner for Windows to ensure that the single practice and case management database remains at the core of the system.
